

AUSTRALIAN ENERGY MARKET COMMISSION RESIDENTIAL ELECTRICITY PRICE TRENDS AROUND THE NATION 2018

Most Australians can expect to see falling electricity prices over the next two years. All states in the national electricity market are expected to see falls - SA, VIC, TAS, NSW and south east Queensland. We estimate slight rises for WA, ACT and NT.

Saving from switching to the lowest market offer from the lowest standing offer for representative consumer

SEQ **\$254** VIC **\$465**
NSW **\$293** SA **\$357**
ACT **\$286**

Legend

Supply chain cost components of a typical bill

Market offer	Standing offer
Wholesale	Wholesale
Networks	Networks
Environmental	Environmental
Residual	Residual

This report's focus is on the drivers of total bill trends. The residual applies in most jurisdictions. It includes operating costs and margins.
