- (c) must have regard to other fee structures that it thinks appropriate for comparison purposes.
- (4A) The participant fees charged to a Registered participant may include a component for the recovery of capacity trading and auction costs even if those costs do not involve that Registered participant.
- (5) The following principles are relevant to the recovery of recurrent expenditure:
- (a) if AEMO recovers an excess of revenue over expenditure from the provision of a particular service in a financial year, it may roll over the excess to a later financial year (or later financial years) so as to reduce revenue requirements in the later financial year (or later financial years);
 - (b) AEMO may recover a shortfall of revenue as against expenditure for the provision of a particular service in a later financial year or later financial years;
 - (c) AEMO may take any other action it considers desirable to smooth the impact of actual or anticipated cost variations on the users of a service provided by AEMO.
- (6) Capital expenditure is to be recovered through the depreciation or amortisation of the assets acquired by the capital expenditure in a manner that is consistent with generally accepted accounting principles.

- (3) When AEMO determines a project to be a major gas project, it must also determine the start date for recovery and the period or periods for recovery of the costs of the project.
- (4) AEMO must also determine a participant fee to be used for the recovery of the costs of the project until the next general determination of participant fees.

135CC Components of participant fees

Note:

1. [Deleted]
 2. The fees may reflect adjustments under rule 135CA(4).
- (3) AEMO may from time to time determine that a contribution to capacity trading and auction costs should be recovered as exchange fees under Part 22 or auction fees under Part 25 and not as participant fees.

135CD Publication of fee structure

- (2) A Registered participant must pay to AEMO the amount stated to be payable by the specified date for payment (whether or not the Registered participant disputes the amount payable).

- (a) ensures that the total amount of the residual expenditures is divided in full between the electricity and gas industries; and
 - (b) ensures that each industry bears an allocation of the residual expenditures at least equal to the amount by which residual expenditures would be reduced if services were no longer provided to that industry; and
 - (c) promotes the efficient use of electricity and gas services.
