

First Name: Anthony

Last Name: Barham

Email: [REDACTED]

Phone Number: [REDACTED]

Comments: This huge decision should not be made by a select few people. It should be widely advertised and put to an open tender.

The cost of this is being borne by people like myself which is hugely overpriced.

I'm also again the tax evasion and transfer pricing used by the groups trying to get this monopoly contract.

What protections are being put in place to ensure no money is sent offshore and Australians get the benefits of the resources we own? Seems like none.

Publicise this more widely, we should not find out about these things by accident.
