

Formal commencement of claim

Ref. CRP0129

The Australian Energy Market Commission (AEMC) gives notice under the National Electricity Rules as follows:

On 17 June 2022, the AEMC received notification of a claim for compensation under clause 3.14.6 from Smithfield Power Generation following the application of the administered price cap during an administered price period in Queensland and New South Wales between 12 June 2022 and 15 June 2022.

Smithfield Power Generation is claiming compensation for direct costs only incurred in operating Smithfield Power Station during the administered price period.

Smithfield Power Generation provided information in support of its claim on 1 August 2022.

The AEMC is reasonably satisfied that it has sufficient information from Smithfield Power Generation to assess the claim and has now commenced formal assessment of the claim. The timeframes provided in clauses 3.14.6(l) to (s) of the National Electricity Rules will now apply to this claim for compensation.
