Dear Mr Levitzke

Exemption Application – Australian Gold Reagents Pipeline (PL57)

Your application for an exemption under Part 23 of the National Gas Rules, as applied in Western Australia, for the Australian Gold Reagents Pipeline (PL57) has been assessed by the Economic Regulation Authority (ERA).

The ERA has decided to grant a Category 1 (exemption from Division 3, access requests and negotiations; and Division 4, arbitration of access disputes), Category 2 (exemption from the obligation to publish information under Division 2) and Category 3 (exemption from the obligation to publish information under Division 2 other than pipeline information and pipeline service information) exemption for the Australian Gold Reagents Pipeline. The exemptions are valid from 25 September 2018 for five years, and expire on 25 September 2023.

This exemption may be varied or revoked at any time, in accordance with provisions in the National Gas Rules as applied in Western Australia.

As required under Rule 585(8) of the National Gas Rules (WA), please notify the ERA without delay if circumstances change such that the pipeline no longer qualifies for the exemption granted.

The Australian Gold Reagents Pipeline must still comply with all other provisions in the National Gas Rules (WA) not covered by this exemption.

The ERA is required to establish, publish and maintain a register of exemptions. Your application will be published on the ERA's [website](#).

Please contact either Robert Pullella or Tyson Self on 08 6557 7900, if you have any questions on this matter.

Yours sincerely

NICOLA CUSWORTH
CHAIR
