Submission Type

Rule Change

Comment

The City of Whittlesea supports the IPWEA submission on Minor Energy Flow Metering. We agree that there is a strong case, as outlined in the IPWEA submission, to make changes to the metering regime in the National Electricity Market that would recognise the metering data being produced by devices, such as smart street lighting controls. We encourage both the AEMC and AEMO to make changes in this area that would introduce a straightforward and cost-effective approach to the metering of street lighting and other similar devices in the public domain.
