Submission Type

Rule Change

Comment

Campbelltown City Council supports the IPWEA submission on Minor Energy Flow Metering. We agree that there is a strong case to make changes to the metering regime in the National Electricity Market that would recognise the metering data being produced by devices such as smart street lighting controls and other small electrical devices in the public domain. We encourage both the AEMC and AEMO to make changes in this area that would introduce a straightforward and cost-effective approach to the metering of street lighting and other similar devices in the public domain.

Should you wish to contact Campbelltown City Council for follow up, please contact Council's Sustainability and Resilience Project Officer, Patrick Whitford at patrick.whitford@campbelltown.nsw.gov.au or on 0437 247 841.
