Dear Anna Collyer

Energy senior officials working under the instructions of the Energy and Climate Ministerial Council are submitting the accompanying rule change request to you: a rule change application concerning the *East coast gas system reliability standard and associated settings*. This rule change asks the Australian Energy Market Commission (AEMC) to consider, amongst other things, changes to Part 19 of the National Gas Rules to ensure alignment of the Victorian Gas Planning Review with the new national reliability standard where appropriate.

For the avoidance of doubt, I endorse this rule change for the purposes of section 295(3) of the National Gas Law and request that the AEMC proceed with initiation of the rule change.

Yours sincerely

Hon Lily D'Ambrosio MP
Minister for Climate Action
Minister for Energy and Resources
Minister for the State Electricity Commission
