Dear Ms Collyer

In my capacity as Minister for Energy, and in accordance with section 32A of the National Electricity Law, I direct that references to the Queensland renewable energy targets be removed from the *Emissions targets statement under the national energy laws* (statement).

For the avoidance of doubt, these targets are the Queensland renewable energy targets outlined in page three of the statement, in Table 2.1 'Targets likely to contribute to reducing Australia's greenhouse gas emissions' under the heading 'Supply side'.

The Queensland Government made an election commitment to repeal the renewable energy targets under the *Energy (Renewable Transformation and Jobs) Act 2024* (Qld). Retaining reference to the renewable energy targets, within the statement, does not accurately reflect current government policy.

If you require further information, please contact Ms Carlye Sycz, Acting Deputy Under Treasurer, on 0466 855 473 or Carlye.Sycz@epw.qld.gov.au.

Yours sincerely

DAVID JANETZKI MP
