By email: [georgia.newland@tasgas.com.au](mailto:georgia.newland@tasgas.com.au)

Dear Ms Newland,

**Re: Exemption under Part 10 of the National Gas Rules (NGR) – Tas Gas Networks**

I refer to your email, received by the AER on 6 December 2023 confirming the nameplate rating and the maximum daily capacity of Tas Gas Networks.

**Category 2 exemption under Part 10**

Since the maximum daily capacity of the Tas Gas Networks is more than 10 TJ/day, the AER is **not satisfied** that it is eligible for a Category 2 exemption under Part 10 of the NGR.<sup>1</sup>

**Further information**

Rule 102(6) of the NGR requires the AER to establish, publish and maintain a register of exemptions. Barring personal information, details and responses in your email dated 6 December 2023 may be published on the register along with this response.

Please contact [Raj Sehgal](#) if we can assist further.

Yours sincerely

Cain Fleckhammer  
Director, Gas Reforms  
Future of Network Regulation
