Notice under National Electricity Law

Notice of initiation
Notice of extension for draft determination
Notice of extension for final determination

The Australian Energy Market Commission (AEMC) gives notice under the National Electricity Law as follows:

Under s 95, the Australian Energy Market Operator (AEMO) has requested the *Operational integration and visibility of large inverter based loads* (Ref. ERC0455) proposal. The proposal seeks to improve operational integration and visibility to AEMO and network service providers of large inverter based loads. Submissions must be received by **17 December 2026.**

Submissions can be made via the AEMC's website. Before making a submission, please review the AEMC's privacy statement on its website, and consider the AEMC's Tips for making a submission. The AEMC publishes submissions on its website, subject to confidentiality and other considerations.

Documents referred to above are available on the AEMC's website and are available for inspection at the AEMC's office.

Under s 107, the time for making the draft determination on the *Operational integration and visibility of large inverter based loads* (Ref. ERC0455) proposal has been extended to **1 April 2027.**

Under s 107, the time for the making of the final determination on the *Operational integration and visibility of large inverter based loads* (Ref. ERC0455) proposal has been extended to **22 July 2027.**
