System Security Market Frameworks Review – Interim Report

Dear Mr Henry

SEA Gas welcomes the opportunity to comment in response to the Commission's Interim Report on the System Security Market Frameworks Review (**Interim Report**).

SEA Gas considers that power system security would be enhanced through introduction of:

- mechanisms to procure additional inertia / fast frequency response and services to improve system strength
- a protected event category.

Accordingly, we support the AEMC's preliminary views to that effect expressed in the Interim Report.

I trust that SEA Gas' submission will be of assistance to the Commission in completing its review. Should you wish to discuss SEA Gas' position, please contact Paul Frederick, Head of Business Development on (08) 8236 6823.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'W Oldham', with a long horizontal flourish extending to the right.
