Dr J Tamblyn
Australian Energy Market Commission
PO Box A2449
Sydney South NSW 1235

Dear Dr Tamblyn

**NATIONAL ELECTRICITY RULES AMENDMENT
AGGREGATION OF ANCILLARY SERVICE LOADS
DRAFT DETERMINATION**

Aurora Energy Tamar Valley (AETV) is pleased to provide the following submission in response to the Australian Energy Market Commission's (AEMC) draft Rule change determination of 24 June proposed by the Australian Energy Market Operator.

The Rule change seeks to remove barriers to the aggregation of ancillary service loads for provision of market ancillary services.

AETV is a market generator and owns and operates the Tasmanian Tamar Valley Power Station, which is a fully owned subsidiary of Aurora Energy Pty Ltd.

The Rule Change as proposed is supported along with the arguments presented by the AEMC in consideration of the draft determination.

AETV also looks forward to a further review by the AEMC in its consideration of the interaction between ancillary services loads and market customers.

If you should have any questions in relation to this submission please contact Shaun O'Loughlin on 0418 139 002 or shaun.oloughlin@aetvpower.com.au.

Yours sincerely
