Re: Proposed Rule No. 2005/1 - Timely Information to NEMMCO after operating incidents

Dear John

AGL supports NEMMCO's proposal to more clearly define the time available for participants to respond to queries for information in relation to reports into operating incidents. It is important to the operation of the National Electricity Market that incidents are investigated as fast as reasonably possible. AGL considers that the proposed 20 business day default with extensions of time as agreed by NEMMCO and the relevant participant are appropriate.

AGL notes that NEMMCO is not similarly limited in Rule 4.8.15(e) and considers that it may be more appropriate to insert NEMMCO's proposed change as clause (f) rather than (d1) and add a automatic extension of time where a participant is waiting for a relevant response from NEMMCO to allow it to provide the information under 4.8.15(d).

If you have any queries, please contact Alex Cruickshank, Manager NEM Development on (03) 9201 7694 or by email to acruicks@agl.com.au.

Kind regards,

A handwritten signature in black ink that reads 'Dimery'.
