

Notice under National Electricity Law

The Australian Energy Market Commission (AEMC) gives notice under the National Electricity Law as follows:

Under s 95, the Reliability Panel has requested the *Reliability Panel public meetings* proposal (Ref. ERC0157). The proposal seeks to amend clause 8.8.3 of the NER to allow the Panel greater discretion to determine the manner in which it conducts its public meetings. The AEMC intends to expedite the proposal under s 96 as it considers the proposed Rule is non-controversial, subject to requests not to do so. Written requests not to expedite the proposal must be received by **18 July 2013**. Submissions must be received by **1 August 2013**.

Under s 95, the Minister for Energy and Resources (Victoria) has requested the *Victorian jurisdictional derogation – advanced metering infrastructure* proposal (Ref. ERC0159). The proposal seeks to extend for up to three years the effect of an existing derogation, which makes distribution businesses exclusively responsible for metering services for Victorian small electricity customers. Submissions must be received by **1 August 2013**.

Submissions can be made via the AEMC's website. Before making a submission, please review the AEMC's privacy statement on its website. Submissions should be made in accordance with the AEMC's *guidelines for making written submissions on Rule change proposals*. The AEMC publishes all submissions on its website, subject to confidentiality.

Documents referred to above are available on the AEMC's website and are available for inspection at the AEMC's office.
