Electricity and Gas Retail Competition Review in South Australia

The Australian Energy Market Commission (AEMC) has published the Second Final Report in its Review of the Effectiveness of Competition in the Electricity and Gas Retail Markets in South Australia, in accordance with the Request for Advice received from the Ministerial Council on Energy. The Second Final Report sets out the AEMC's final advice that the existing framework for regulating retail energy prices in South Australia should be replaced by a transparent and comprehensive price monitoring and reporting regime, and the ability to re-introduce price regulation if competition deteriorates.

Further details about the Review are available on the AEMC's website at www.aemc.gov.au. All documents in relation to the Review are published on the AEMC's website and are available for inspection at the offices of the AEMC.
