

Part 15 Scheme register

133 Establishment and maintenance of register

- (1) The AEMC must establish and maintain a register (the **scheme register**).
- (2) The scheme register is a register of all pipelines that are, or have been, subject to any form of regulation or exemption from regulation under the *Law* or the old scheme.
- (3) The scheme register is to include for each pipeline:
 - (a) a description of the pipeline (including, in the case of a covered pipeline, historical information about extensions and capacity expansions occurring while the pipeline was covered); and
 - (b) the pipeline's classification and regulatory history under the *Law* and the old scheme.
- (4) The scheme register is to include the text of current and former:
 - (a) greenfields pipeline incentives; and
 - (b) *tender approval decisions*; and
 - (c) coverage determinations; and
 - (d) coverage revocation determinations; and
 - (e) light regulation determinations; and
 - (f) applicable access arrangements.

134 Notification of extension or capacity expansion

When the description of a scheme pipeline is affected by an extension or capacity expansion, the service provider must give the AEMC a revised description of the pipeline, incorporating the extension or expansion, for inclusion in the register.

135 Public availability of the register

The scheme register:

- (a) must be accessible on the AEMC's website; and
- (b) must be available for inspection by the public at the AEMC's public offices during business hours.
