Dear John,

Generator Compliance Template Review - 2019

I am writing to advise you that the Reliability Panel (Panel) has now completed its 2019 Generator Compliance Template Review. The Panel's final report for this review has now been published, in accordance with clause 8.8.3 of the National Electricity Rules (NER).

Following the completion of this review, the Panel has decided to update the template for generator compliance programs (template) to improve its clarity and to reflect changes made by the Commission in the generator technical performance standards rule change. The template becomes effective from 19 December 2019.

Should the AEMC have any questions with respect to the Panel's conclusions from this review please do not hesitate in contacting me.

Yours sincerely

Charles Popple
Chair, Reliability Panel
Commissioner, AEMC
