

Notice under National Electricity Law

Notice of initiation

The Australian Energy Market Commission (AEMC) gives notice under the National Electricity Law as follows:

Under s 95, Dr Kerry Schott AO has requested the *Extension of time and reduction in scope of the 2022 reliability standard and settings review* (Ref. ERC0336) proposal. The proposal seeks to amend the 2022 Reliability Standard and Settings review to reduce its scope by removing the need for the Reliability Panel to review the reliability settings, and to extend the date for its completion from 30 April 2022 to 30 June 2022. The AEMC intends to expedite the proposal under s 96 as it considers the proposed Rule is non-controversial, subject to requests not to do so. Written requests not to expedite the proposal must be received by **11 November 2021**. Submissions for the request must be received by **25 November 2021**.

Written requests should be sent to submissions@aemc.gov.au and cite the reference in the title. Before sending a request, please review the AEMC's privacy statement on its website.

Submissions can be made via the AEMC's website. Before making a submission, please review the AEMC's privacy statement on its website. Submissions should be made in accordance with the AEMC's *Guidelines for making written submissions on Rule change proposals*. The AEMC publishes all submissions on its website, subject to confidentiality.

Documents referred to above are available on the AEMC's website and are available for inspection at the AEMC's office.
